

LYMPHOMANIACS

December 2008

■ SOLARIS IS PROUD TO ANNOUNCE: **READYWRAP**

As you may have heard, Solaris has recently released a new product. ReadyWrap in-elastic garments are designed to help manage venous disease and lymphedema

Our ReadyWrap Professional units (shown below) are set to the preferred compression by a medical professional, while our ReadyWrap Quick-Fit units are set by the patient.

We are very excited about ReadyWrap, and believe that it will be a staple of standard treatment protocol for years to come.

If you have any questions or would like to request a sample or catalog, please email us at info@swellingsolutions.com.
